The interior of my vehicle body

What's the name of the pedal on left ?

Pushing this pedal switch the stop lights on.

Drive this pedal with sweetness !

Drive a little this pedal increases the motor régime.

If it's too small, it requires more effort to drive the car.

Push it to warn a danger.

Push it down before turning on left side !

You pull it, toward you, to wash the windscreen.

The binnacle of my car

It regroups the different instruments of orders and informations.

To keep the good speed on the road.. You need to look at it !

Orient it to cool yourself !

Now, it is incorporated in the instrument panel.

They allow regulating the temperature of the binnacle.

It can be locked .
